

SUSAN PHILIPSZ - THE FALL

CONCEPT + MENU PROPOSAL - NOV 2ND, 2021

**CREATE MODEST AND REFINED FOOD
FOR THE EXHIBITION OPENING OF ARTIST SUSAN PHILIPSZ.**

Responding to the structure of Philipsz' installation, this menu denotes the intricate mechanics of an organ pipe. The two essential elements of the first ever organ pipe, water and air, remain pillars within its design and have been carried through as the backbone of each recipe. Each dish takes into consideration the sounds produced when consumed through the mouth, alluding to the body's obligatory participation in both eating and playing such an instrument. The included ingredients reference the edible delights religiously devoured in a place of worship to draw further attention towards the historic setting the installation itself responds to.

1. POTATO BREAD

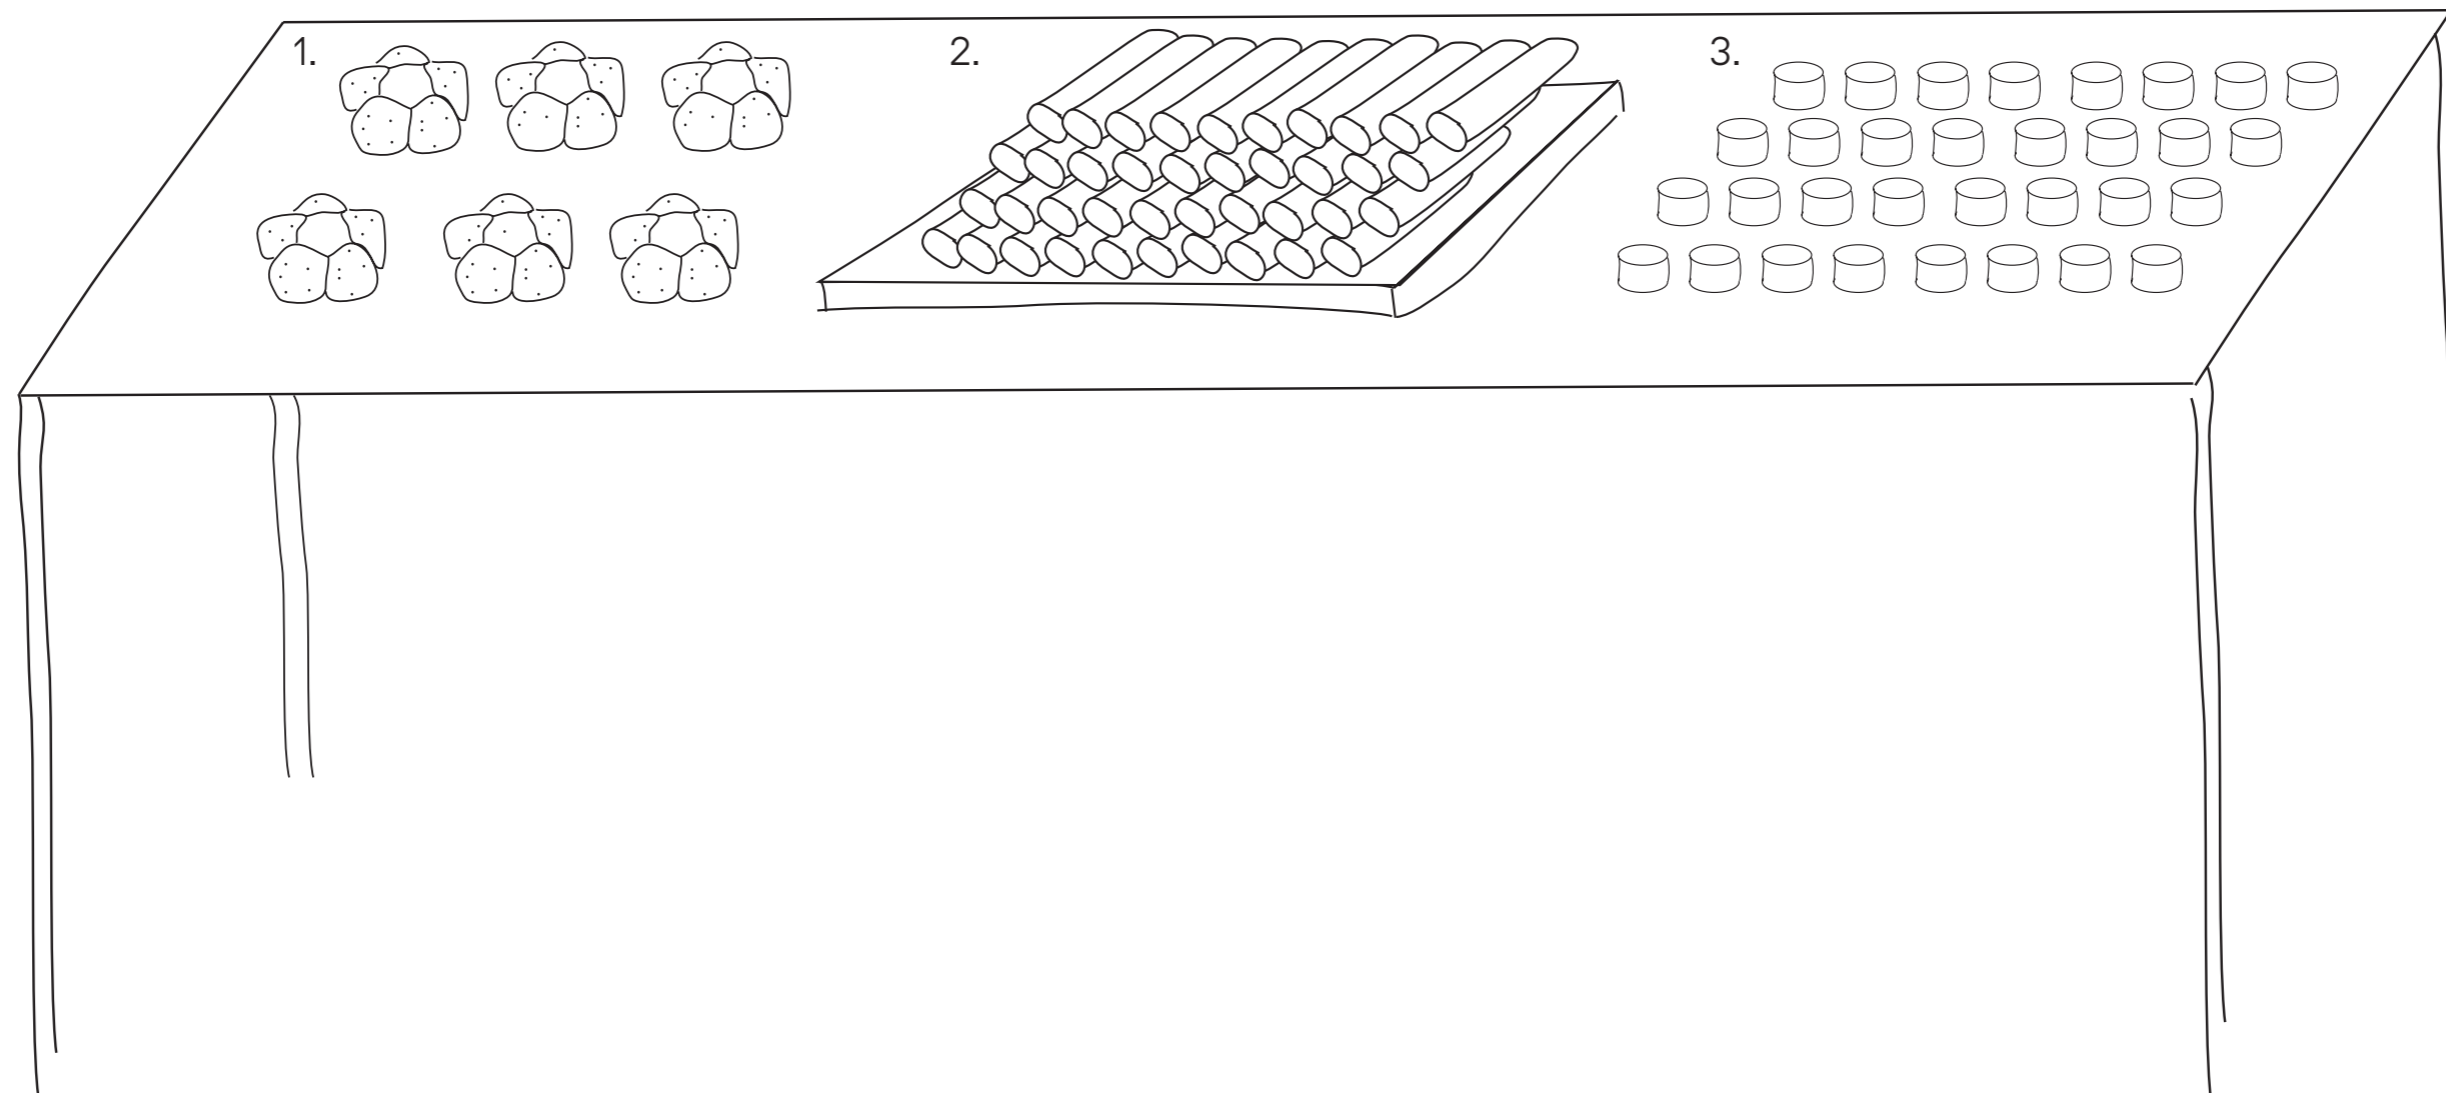

POTATO BREAD, SPRING ONION AIOLI

2. FLAUTA

CRISPY FLAUTAS, MUSHROOM, KALE

3. AJO BLANCO

WHITE ALMOND SOUP, HERB OIL

THANK YOU
